Customer Reviews

I enjoy the story, characters, world, and writing style but I took off a star for the various grammatical errors throughout the book and I almost took off another star for snorting. Everyone and everything snorts. At first it's not bad but then it keeps happening and just when you've forgotten about it someone snorts again. Good story, though. Will definitely be following the adventures in the next book.

One of the best in the litrpg genre. It's focused around crafting but has fighting as well. Well written. Good balance of everything. There's a few typos but not terrible.

Loved it!!! I give books 5 stars only if they are book I have read more than once. I have read the series know 2 time and cant wait for book 6 to come out. Love the series.

This series is just keeps getting better. I can't wait to read the next one.I enjoy the humor and the twist in events that go on this is a must read.

I like this series.

Awesome story.

Great series

This continues the main story, driving it along with a Gadsden Flag based protagonist. Well written and enjoyable read, I eagerly await more in the series. Serious thought put into the world building hand-wavium which adds to the story rather than detract from it.
