Average Customer Review: 4.5 out of 5 stars 2 customer reviews

Best Sellers Rank: #828,697 in Books (See Top 100 in Books) #189 in Books > History > Military > Regiments

Customer Reviews

Classic book on unit losses and battle losses. Good starting place for regimental research and an understanding of the huge losses that shaped a generation of history.

I am buying this book in hard cover (always buy history books in hard cover). I have been referencing this book for over twenty years. There isn't a counterpart to this book! No body has put the effort or energy into a research book like Fox has. Any Civil War researcher or teacher who does not use this book is not using the right research tools. As far as I am concerned (BA in Military History EIU '96 and USN Veteran) there isn't another book unless you want to read the official records/regimental records (e.g. 2 NJ AG Reports) to get the information you need in a method which can be considered quick and to the point. I am FINALLY buying this book. Remember, hard back - yes more expensive, but, it will live WAY past you...
