## Synopsis

A federal judge running from the truth. A U.S. marshal running from his past. A trial that can plunge the world into war. Federal Judge Tom Brewer is finally putting the pieces of his life back together. In the closet for twenty-five long years, he's climbing out slowly, and, with the hope of finding a special relationship with the stunning Mike Lucciano, U.S. Marshal assigned to his D.C. courthouse. He wants to be out and proud, but he can't erase his own past, and the lessons he learned long ago. But a devastating terrorist attack in the heart of DC, and the subsequent capture and arrest of the terrorist, leads to a trial that threatens to expose the dark underbelly of America's national security. As Russia beats the drums of war, intent on seeking revenge, and the United States struggles to contain the storm before it races out of control, secrets and lies, past and present, collide in Judge Tom Brewer's courtroom. With the world's attention fixed on Tom and this case, he suddenly discovers he may be the only person who can put everything together in time to stop the spark of a new world war.

## Customer Reviews

Tal never disappoints us and this one is proof of that. Great book. Just when you think you've got it figured out - a twist makes you put it down for a second and say 'holy s&\$@'. And Tom and Mike - LOVED them!! Hot guys, intrigue and plot twists - if that's your thing - this is your book!

Another excellent Tal Bauer novel! Filled with rich detail and intrigue, it is impossible to do anything but consume this story.

I loved this book and couldn't put it down. I could not guess what was going to happen next which is always a huge plus for me. The premise was believable and interesting and the writing is amazing. The way the book discusses human rights abuses by Russia against people from the LGBT community and the history of violence against the LGBT community in America (in this case in the late 1980s), points out strongly how far society has come since the 1980s, but how very far we still need to go in the fight for equality and non-violence. I hope there will be a sequel, I would love to read more about these characters or others from the book.

Tal Bauer writes some of the best, well researched and thought out books. You feel everything the characters are going through. The highs and the lows. The fear and the love. Hush is an amazing book and I recommend it to anyone who is looking for a thrilling roller coaster of a book that is not a cliffhanger.

I loved it. Just buy and read. I'm not rewriting the blurb lol. The plot was excellent and the love story.... sighhhhh

Another winner from Tal Bauer...I tried to read it slowly to make it last but it kept me late a few nights cause I couldn't put it down...I love his stories and the intrigue. The characters are so human and realistic.....Mike and Tom are perfect together and the love is so sweet and deserved for both of them...didn't see a couple of the twists coming which was wow!!! Surely the next book has to be Kris??

There wasn't any doubt that I would love this. This author is truly amazing!The MCs and the others were interesting. The plot sucked me in. I found myself talking about it to my family over the course of the time I was reading it.In my opinion the author can do no wrong!

Let me say first off that lengthy reviews are not my thing at all. Suffice to say that I am looking forward to reading anything else written by Bauer. The romance was sentimental, but the political intrigue was awesomely explosive. The novel is thick but engrossing all the same, and the turn of events at the end made the entire read worthwhile. Very, very enjoyable!
