Customer Reviews

This atlas had very good illustration. I was pretty impressed. Although some parts of the freeways aren't made in this. So. It's always good to see what Atlanta was like a few years ago!

Very helpful in finding locations to unfamiliar areas.

This book is a little behind the newer areas that have been recently developed.

Excellent product.

Terrible. Total waste of money. The print is too small to read , particularly when moving. The general map quadrants are hard to read and don't match up. There are far better maps and cheaper. What they charge is outrageous for such a bad map. Better to go to Google and print something as this is completely impracticable to use to find your way around Atlanta. Out of date

too, the city has changed but not the map!

The book size is smaller than the last one, the type print can only be read with a magnifying glass, there is not as much coverage in the Atlanta Metro area as the last one, it is not as thick, and I think the book was misrepresented. I want to return both books.

Don't leave home without it.

Very well illustrated.
