Customer Reviews

Founded in 1947, Hal Leonard Corporation has become the worlds largest print music publisher, representing some of the greatest songwriters and artists of all time. We are proud to publish titles of interest to all musicians as well as music lovers, from songbooks and instructional titles to artist biographies and instrument price guides to books about the music industry and all the performing arts.

Arrived with a big gouge in the cover. Which could have been overlooked, had the arrangements not been terrible. Great concept, many songs, but terrible arrangements. In the effort to "simplify" and to easier keys, much of the joy of the song was lost.

This book does have lots of songs and they are easy, but some of them don't sound right at all. Its almost like the people who chose what versions to throw in here didn't play all,these first to make

sure. That's how far off these sound

I'll give it two stars for having a decent song list. The arrangements are very simplistic and the left hand is not very smooth or interesting. There are also minimal fingering suggestions which would help considering how jumpy the left hand arrangements are written. It does give the chords so you can try improving the arrangements on your own. Dan Coates is a much better choice for easy piano arrangements.

Bought this for my dad as he loves to play piano. At first glance, he didn't recognize most of the songs, but when we would refer back to youtube, he got really excited and started playing. A few songs he played for years and was shocked to learn he had been playing out of key, sync, or even wrong. We had a lot of fun with this book already. Great for someone wanting to learn the love songs!

I'm an intermediate as in I can read the notes and play accordingly but I don't know the technical terms since I am self taught. The pieces seem short and the melody sounds....too simple(?) Mastered couple songs but just doesn't sound the same. Mastered as in playing it correctly on tempo. I have other books that for example have me play 4 notes per chord for my left hand but this book has it instructed for only 3 notes. So perhaps for beginners this would be a good start.

great songbook

Arrangements are boring and not fun to play. Seller did an EXCELLENT job though.

Very nice book for level 1/beginner and has a great selection of music
