Many wonderful songs in this book

Perfect Christmas music collection, they sound as good as the original, though there are some parts made easier to play in this sheet music collection. Advanced beginner player to intermediate player will definitely enjoy this sheet music book. Doesn't require too much time to practice as each piece is mostly less than 3 minutes long.

His music is just a joy to listen to and to play. I like that the chords are on the arrangement so if I have to improve it make it easy. I've played many of his for preludes at church and was very well received.

Love it.

I enjoy his music. Some pieces are a little challenging because of the syncopation. However, one just works through them. This book is not for beginners. I really like playing the selections in this particular book.

Beautiful arrangements, an enjoyment to play.

Excellent book. Jim's rhythms can be a bit tricky, making the music slightly more difficult than expected, but still playable and beautiful!

I enjoy sitting down to play any/all of Brickman's music - but I especially enjoy his Christmas books. This is another great one.
