Customer Reviews

2 3/4 ready to potty train and this book laid it out to take the stress off. She got by day 3, but we continued for 2 more days to get #2 down. Easy, quick read and great down to earth tone.

I was skeptical at first, but after reading the book cover to cover and applying the tips, it worked! My 3 year old son was fully Day potty trained in 48 hours! He has had limited accidents as we know the cues before there's a chance to have that happen.

Potty training isn't easy but this book was sure easy to read. I love how simple she puts it and makes it sound totally attainable.

Definitely great tips! Some things are common sense, but for me it really helped to hear (rather read) someone else say it, to remind yourself of it. We just did this method and my son is doing great on Day 4. He's not at the point where he can go on his own or always tell me before he has to go, but that's something she doesn't expect to happen within the 3 days. Overall it was really helpful for me!

Made me realize that I was the problem. Read in one sitting and my child was trained in no time. Thank you!

Very happy with this purchase, not only because it worked for my 2.5 year old son but it was also a very easy read. I certainly don't have time to read books these days and this was very easy to get through/put down and pick up again. AND it worked for us!!!

It took a little more than 3 days but that's my own fault. It was eye opening and we now have a potty trained 3 year old!

This book can be read in less than a day and was easy to understand. The author's potty training

methods are doable too. But ignore the part that says not to use little potty chairs. My toddler prefers the little potty chairs and there are disposable liners for the potty chairs if you don't want to constantly clean the yuck out.
