The TomsBikeTrip.com Guide To Adventure Cycle Touring

Synopsis

With contributions from more than 50 veteran bicycle travellers, the TomsBikeTrip.com Guide To Adventure Cycle Touring will walk you through every step involved in planning and undertaking a bicycle-mounted adventure of any length. Author Tom Allen has pedalled more than 20,000km in over 40 countries since 2007. His blog TomsBikeTrip.com is the number one UK cycle touring resource on the web. This, his fourth book, is a 277-page beginners' guide to two-wheeled adventuring. The guide covers a vast range of topics without getting bogged down in details. It presents a range of perspectives, rather than the "my way is the best way" approach you'll find on countless websites and forums. And it is a manual of reassurance as much as a practical guide because getting to the start line isn't about knowing everything, but about knowing enough to begin. Whatever you're planning and wherever you're thinking of going if it involves a bicycle and the spirit of adventure, this book has got you covered.

Customer Reviews

I'm only a few pages in but having read 'You'll find that slowness actually amplifies the intrigue of exploring new roads' and being reminded of Thoreau's take on 'sauntering' is an excellent indicator Tom's got this touring stuff figured out... 'nuff said. Hope to see you spinning those cranks somewhere!

What I like most about the book is that it's a pragmatic approach on how to start your first tour. The advice is sound with parts that seemed to be almost tongue in cheek, but not impossible for all (the part where you sell all your stuff). I think the book is great for first time tourers like me. I have a date set. Great book. Lots of wisdom. Liked the approach to give back into the bicycle touring community. I also like the idea of just doing it, especially in a world of over preparation. Thanks Tom!!!! Ready to read your other book too. Kevin

I am starting to explore about cycle touring and this book is an eye opener guide for future adventures. Thanks so much Tom for putting together such a magnificent book/guide to cycle touring.

A nice intro to making a bike trip become a reality. You will find yourself much more likely to actually do it!

While some of this book seemed simplistic, looking at the big picture it was well worth the read. His miles off experience lend credibility to each of the subjects. Well done Tom!

Fantastic! Extremely motivational. Pretty sure this book will move me from arm chair to the road. I am a long time fan. Thanks Tom
