Customer Reviews

Nothing too amazing. It's a normal textbook. It served its point though. I am now slightly more advanced at reading than I was before reading this entire book.

This came fast not a long wait all. It's wasn't used so I was able to use it for my reading class. There was no stains, rips everything was secured together. I would recommend if you need it for your reading college courses

I wish I would of known this book was missing pages it make it difficult to complete assignments

Was in need for my summer class, and it turned out to be pretty helpful yet also easily understanding at the same time.

Brand new and in perfect condition, exactly what I needed.

Book pages were ripped and didn't have all the pages .

I bought it used and expected most pages to have writing but 2 pages were missing from this book. I had class work on it and they were ripped apart lol.

This book is missing several pages. But luckily we skipped them in class.
