I like guidebooks that are organized by neighborhoods rather than topic because I can then cut them up and bring the appropriate section with me. No walking tours. No maps of neighborhoods with landmarks, restaurants, etc. mapped out. Should have gone with Lonely Planet. Macau information was also lacking - could have had more food suggestions and a map with all the casinos. Definitely would not purchase again.

This appears to be a very informative book about Hong Kong. The organization is a bit different as somebody has mentioned but it kind of makes it nice. But I would suggest pairing this book with another for a destination like Hong Kong.

Great overviews and map. Solid information broken down into the unique neighborhoods of HK. A wee bit heavy to carry all day in the HK heat unless you have a backpack. In a woman's shoulder bag, along with camera and cash (lots of large coins in HK) it can get heavy. I regretted not having it on me when I went to Central district where there are sooo many restaurants. If you go to Macau on the ferry, get an early start, as the passport check lines can take an hour in late morning.
