The Art Of Dressing Curves: The Best-Kept Secrets Of A Fashion Stylist

Synopsis

Susan Moses, the go-to celebrity stylist for curvy women both on and off the red carpet presents the first inspirational, confidence-building, prescriptive style guide for plus-size women who want to dress fashionably and look their beautiful best. Nearly two-thirds of American women are plus-size and they care just as much about fashion and beauty as their thinner counterparts. They're tired of being ignored by the industry and shopping for styles wedged into the far reaches of department stores. Now, Susan Moses, a plus-size woman with a dynamic personality and an in-demand stylist whose clientele includes Hollywood and music industry celebrities, addresses this audience's needs with this essential handbook to help them look fabulous. The Art of Dressing Curves gives plus-size women the confidence and know-how to dress beautifully for their particular body shape. Gorgeously designed, filled with high-fashion photography, and written in Susan's down-to earth, accessible, and enthusiastic voice, The Art of Dressing Curves tells the story of her journey to self-acceptance and outlines her formula for seamless dressing that has helped some of the most iconic curvy women in music, film, and fashion look dazzling in the spotlight. From foundation garments to wardrobe essentials to hair and makeup, Susan dispenses advice on every aspect of dressing well for one's shape, size, and personality, insight supplemented by a wealth of elegant editorial photographs, anecdotes, tips, and sidebars, as well as lists of specialty retailers, designers, and websites that cater to plus-size.

SO MUCH useful information and I love her attitude too! Best money I spent on myself!!

Plus size women's Bible!

Great ideas. I have not finished reading it, loaned it to a friend and she liked it and got good ideas. I now have it back and I will enjoy finishing it.

Best book for styling I have ever came across with

I am a 2x. Pretty good basic guide. Author is/was a plus size AND styles plus sized looks, so she is legit in my book. Great read to determine body shape, then recommends the specific shapewear + clothing styles for that type. Never really thought about that I may need *specific* kinds shapewear, rather than just... I need shapewear. Incorporates measurements into determining your body type instead of just saying, which piece of fruit do you look like so that is a plus (apple, pear?? How do I know?) Also recommends best dress shape for your size, fit n flare vs. sheath, for example. My body type supposedly will look good in a sheath, so went shopping to purchase this plus new bras (also discovered I am wearing the wrong bra size). Tried on a sheath, something I would NEVER have chosen in the past, and BAM, it looks fabulous. Gave it 4 stars because some info is too general, like, "shirt length comes in waist, high hip, or low hip. Select which works best for you." If it was that easy, I would not need to read a book for tips. Is not too preachy about never wear white, horizontal stripes, etc.

Loved it

Quick shipping, great quality product.
