Customer Reviews

For as long as i can remember I have been fascinated and intrigued by the idea of mind reading and

supernatural powers like Clairvoyance and Psychic reading. Recently I have been trying to explore this world of the supernatural world of instinctive powers and abilities because by gut says that such powers can be developed. This book can start as a great starting point of such psychic adventures.

I decided to purchase this book to verify the little information I know about Auras and of course to gain more knowledge about it. If you are one who doesn't believe auras exist, this book might change your mind. It clearly explains what an aura really is, its significance and how it is formed. In my opinion, the most interesting part of this book is the Chapter 2 which discusses the colors and meaning of auras. This book is very informative and enjoyable to read.

I'm always trying to learn new things about the Psychic topic. While I was reading this book, I received a lot of new information on this subject. I've always been in tune with my spirituality and positive thinking, but this book takes it to another level! Its very exciting to read about the development of the psychic because it gives you a new perspective on life and yourself. Thank you Crystal for such a great book! I'm recommending this to all of my friends and family.

This was my first time reading a book on Auras and this book makes me want to delve deeper. I recommend this book to people who want to learn about Auras or psychic development. I am giving this book a high rating because The author was very informative, I feel like I learned so much from this book.

Yes, I have always wondered about the thing called auras and how they go about or how to know that I have them. I have read several books about it, but then it seems incomplete as I still don't know what it is all about. The difference with this book is that it has given a lot of useful topics that added to my total comprehension. Among those that captured my 100% interest are those that discussed the perks and significance of Auras, the one that explained the meaning of the aura colors, and knowing how to detect auras in other people. This book has been worth the grab.

Clear. Concise. Full of great information. Makes it much more simple and easier to understand than a lot of the ones I have read before. Yes, you can see them if you use the ideas the author gives you and are open to seeing them.

Over priced for size of book.

Interesting read that reveals a lot of insights about Auras. Have always been fascinated by this Aura stuffs, and the book actually teaches you how to train yourself to read people's aura. Will definitely try it, and hope I can develop that ability sometime!
