Consent To Kill: A Thriller (A Mitch Rapp Novel Book 6)

Synopsis

#1 New York Times bestselling author of *American Assassin* – soon to be a major motion picture On the front lines of the global war on terror, CIA superagent Mitch Rapp races to save one more life – his own – in this “fast, fun read” (People) from #1 New York Times bestselling author Vince Flynn. An eye for an eye: that’s what the powerful father of a dead terrorist demands in retribution – and with his hate-filled plea, Mitch Rapp becomes the target of an explosive international conspiracy. The fearless operative has both killed with impunity and tortured to avert disaster, all in a battle to preserve freedom. But even among America’s allies, some believe the time has come to bring Rapp down. Now the hunter is the hunted, and Rapp must rely on his razor-sharp instincts for survival – and justice – as he unleashes his fury on those who have betrayed him.

Customer Reviews

Been a Mitch Rapp fan since reading the first book a few months ago. Can't wait to get to the next

novels! Without giving the story away, all I can say is that I never saw some of these incidents coming! I really thought Flynn's character would start to take another turn, almost to the point of some office job this introducing a new hero. Not the case!!! Not only in the life of Mitch Rapp the incidents throughout this novel effect many characters in various ways. Mitch's life is a roller coaster ride and continues as this novel progresses. Again, there's little more to review without giving the story away so I will add that Mr. Flynn's writing, his attention to details, his knowledge of things within governments and powerful organizations cannot be mere speculation. He HAD to have some real-life people giving him stories because it's just too believable! The action in this novel is fast making the book hard to put down. The storyline is great and the end leaves you wanting more! Great read, excellent series and ordered the next novel by the time I read the last page of Consent To Kill.

Not your typical Mitch Rapp as he is the hunted instead of the hunter. Don't want to give away the plot or any surprises. This is different on many levels and we see a Mitch we don't often see. A personal side and glimpses into the man not often discussed. Mitch is still the same when he goes into action, never fear. There are just some things that affect him and makes him reflect. Some may criticize the book and find faults but we are going in a different direction for Mitch based on some events. Can't really go into those without giving things away. Mitch reflects on his life and still answers some questions with his style of violence. The ending may be criticized by some but it is a chance for Mitch to be human and make a decision based on life events. Don't find fault with him for the decision he makes. Still the best series of novels in a long while and Mitch is Mitch for all who follow him. Don't hesitate to read this one

This is an overall all review of the Mitch Rapp series by Vince Flynn. I have been on a tear, reading this series since I discovered Mitch Rapp in the first book - American Assassin. I just can't stop reading these books. I am now into book 7 in the series and my review of each has to be virtually identical. This is a tremendous series with each book as exciting, intriguing, and timely as the next. I cannot recommend them enough. There is spy craft, politics, adventure, treason, military background, heroism and on and on. Flynn develops the characters well and each one holds your interest as he folds each into the stories. I am a Lee Childs - Jack Reacher fan and I never thought anyone could do better, but I have to admit the Vince Flynn with this Mitch Rapp series has equaled, if not out done Childs. I can't wait to get to book 8!

The Mitch Rapp series has been one of the best action thrillers i have read. Each book is better than the previous one. I am so sorry to know that Vince Flynn has passed. He has done some great writing, and I shall miss this man I never knew. I will move on to book 7 and keep going til i have finished them all.

Lots of twists and turns....all unexpected. It is a great read. No hints from me. I started with book one and just finished number 6.... ready for number 7. Vince Flynn spins a yarn as good as anyone. He is missed.

Not a lot of surprises, those of us that read the series feel we already know Mitch Rapp and the crew. What is surprising is the political insights from the time this book was written to the world we live in today..... possibly we have some people in power in America that need to read this and wonder if the futures been told

This is one of a series of Mitch Rapp thrillers involving dark solutions in the war on terror. There are a lot of facts, and opinions woven into a fictional account of one man's "govt sanctioned" war on terror.

I've read many of the reviews, so I won't bore you with the details of the story line. I've read eight Mitch Rapp books and was mostly pleased with the other seven. While his books are very good with lots of detail, that detail can also be a drag. It seems that each book was intended as a weekly episode of the tv show 24. Again, lots of detail but not much meat. Tom Clancy was much better at this genre. Brad Thor has better character's, although in whole the Vince Flynn series is better. I will read the remainder of the books because they are entertaining reads, but this specific book is only average.
