Customer Reviews

The Ultimate Guide: Recipes of Maine by Encore Books Love seafood of Maine and we visit at least once a year. Book starts right in with the recipes which included prep and cook time, ready in and servings. List of ingredients, and directions on how to make the dish. There are NO pictures and NO nutritional information but you might be able to substitute for a healthier option it just won't taste like it really should. Blueberry cake would be the healthiest due to the ingredients-one I will be making soon. Pumpkin pancakes sound so good! Lots of lobster dishes but I don't understand why you need

to use things from a can and not freshly cooked as you can get Maine Lobsters year round at your local store. Same with salmon-why use the stuff in the can, use fresh. Other works by the author are highlighted at the end.

great

This small recipe book contains an interesting variety of regional specialities. I found a couple that really appeal to me and that I am anxious to try.

Every free book gets a 5-star review from us...if you ever don't like a free book, just ignore it.
