## Customer Reviews

I have three boys and fart jokes are de rigueur in our home. I don't remember how I stumbled across this farting Pokemon coloring book; If I recall, my youngest had asked if they made coloring books with dinosaurs farting (they do, by the way) and it was that search that lead me to the farting Pokemon coloring book. I definitely have seen and bought better quality books, but it was well worth buying because it made my boys so incredibly happy. There is a wide array of first generation Pokemon in this coloring book, all of them farting. A lot of of the pages have some sort of verbiage on them, usually a fart joke (big surprise!). Most of the jokes fall flat, unless you are in the 5-12 year old boy range, which is the target audience. Very happy with purchase and will be buying more "farting" coloring books in the future.
