Tome Of Beasts

Synopsis

The Tome of Beasts brings more than 400 new monsters to 5th Edition. Whether you need dungeon vermin or a world-shaking personification of evil, the Tome of Beasts has it! This richly-illustrated, 400+ page supplement for any 5E game includes monsters from the entire history of Kobold Press, with longtime favorites such as clockwork creatures, drakes and dragons, devils and arch-devils, and dangerous flavors of the fey—illustrated by some of the finest artists working in fantasy today. These monsters have been designed so that GMs can use them in their favorite settings for fantasy adventure, whether it's Kobold Press's world of Midgard, one of the classic realms of d20-rolling gaming, or their own homebrew worlds.

Customer Reviews

There are some excellent beasts in here. Sure, there are a few misses, but there are some misses in the "other one" as well. Just look out for a rather consistent run of typos (which I find annoying, but not a material weakness). I recommend looking into--but evaluate for yourself--the Book of Lairs for 5th Edition as a good compliment.

Buy this book especially if you are a DM; this is a must have addition for any dungeon master out there. There are around 400+ different types of monsters; the book focuses heavily on fey creatures and has a ton of other cool monsters such as dragons, clockworks, elementals, and various Lovecraft baddies. The book itself is a nicely presented hardback binding and the artwork inside is fantastic. All of the monsters pertinent data is presented easily for the DM and is organized well. Do yourself a favor and get it; you will not be sorry.

Holy Beholders Batman! Do you need a bunch of new monsters for your games? This is your book. I have been playing D&D since 1988 and this book gave me a bunch of fun ideas. It also has some HP Lovecraft monsters in it like the Mi-Go and Star Spawn of Cthulhu. Good stuff. Very satisfied. I hope they make another book.

More than worth its weight in platinum. A ton of unique monsters spanning across all adventure types and levels. Seriously, if you DM for 5th edition, buy this book now.

This book is a fantastic supplement to the official Monster Manual. It has more creatures than the official book and many of them fill in important holes. Tome of Beasts has a plethora of fey creatures, which the Monster Manual painfully lacks. My one complaint is the number of creatures that are riffs on the "beautiful murderous woman" theme. The book doesn't need four creatures that effectively do the same thing and play on a tired old trope. Overall though, most of the monsters are unique and aren't just variations on existing creatures.

Crazy concepts! This is great for homebrewing. The monsters in the book are great as they are (a little stronger than their CR says), but even better when used as templates for your own monster concoctions. Just looking through the book can be a great way to get ideas and build or fill in your world.

Amazing book! Will keep me entertained for hours as I dream up amazing stories with some of the monsters in this massive tome of monsters. Quick delivery and a beautiful book, well illustrated.

Bought this for my husband and he loves it, thank you!
