Criminology

Synopsis

Criminology is known for its lucid style, student-oriented approach, and interdisciplinary perspective. This text discusses criminological problems, their origins, and possible solutions in a clear, practical, straightforward fashion. Students develop a thorough understanding of today's issues in criminology and are prepared to address and resolve the issues of tomorrow. The eighth edition continues to incorporate the latest findings from criminological research into terrorism, while expanding coverage of new white-collar and corporate crimes related to the current economic downturn. New research and statistical information include coverage of neuro-criminology, evidence-based criminology, and much more. I loved the price of the book because I paid a 1/3 of what a brand new one was but this book was saturated. It had a lot of wrinkled pages. Luckily my son was able to use it and his classmates wondered about the pages but also loved the price when he told them how much he paid for it. It was a great deal because fall quarter he will have to buy the new edition....

This book was required for my online Criminology class. The book was great, however, it is only chapters 1 through 14. This is the exact book listed for my course and yet for some reason it does not include chapters 15 through 18. I did not realize it was short until the very end of the course and I had to scramble to find the text elsewhere. It would be nice if the description mentioned that the only place to find the final 4 chapters is in the online instructors version instead of briefly mentioning it on the last page of the index.

I dropped the class because it was boring....the books fit class, too scientific. Easy to read, a few interesting parts

great book, bought it for college course still read it years later.

This book was a good price, but it was in much worse condition than I expected, so I had to be very careful with it when studying.

Fast shipping and exactly how described.

2nd time I took this class (transfer from Texas to Louisiana) and Louisiana didn't want to take my credits for the Texas one so took this class again and made another A.

A needed book for my Criminology class as CJ Bachelor student. The only problem (as others mention) is that it is missing Chapters 15-18 which are available via on-line license.
