The Everything Pirates Book: A Swashbuckling History Of Adventure On The High Seas

Synopsis

From the corsairs of the Barbary Coast to Blackbeard to Jean Lafitte, pirates have been a part of every culture for centuries. Sometimes terrifying but always colourful characters, their history is as rich with controversy as it is with gold doubloons! With each passing decade, the legends surrounding pirates have grown to epic proportion, right down to their peglegs and buried treasure. "The Everything[®] Pirate Book" follows their historic travails from ancient times to their Golden Age to the modern day search for buried treasure, and reveals the truth behind the Hollywood type.

My son is nuts about anything pirates and loves to read. It is easy to read, very informative and has great illustrations.

This book has such an easy-to-read format that it really could appeal to almost any age. The breadth of topics covered is amazing, and the illustrations are fantastic. I highly recommend this book! (And I can't wait for the vampire book to come out.)

Another great "Everything" book! I had very little knowledge or interest in pirate lore; however, with the current cultural obsession of pirateology abounding in the U.S., I thought I should get with the program. This book makes learning the ins and outs of pirate history and myth extremely interesting and entertaining. Well-written and well-organized, "The Everything Pirates Book" is a must-read if you are interested in pirates-- fact or fiction! Well done, Ms. Spaite and Ms. Karg!
