Customer Reviews

I was given this book from Papeterie Bleu for free in exchange for my honest review. Sugar Skulls at Midnight is a great coloring book. With designs ranging from simple and fun, to a little more intricate this book has hours of coloring fun in its pages. The black background makes it perfect for neon colors. It has 35 designs printed on one side only. The pages are NOT perforated. When you are done you will have a book of lovely artwork. I have used markers, gel pens, crayons, and colored pencils and the paper is nice for using any of your favorite mediums. I have usually passed over skull coloring books before, usually buying mandalas or flowers. I'm so glad I was able to try skulls because I found that I really enjoyed coloring something so different than I usually do. I am looking forward to coloring more in this book and will post more pictures on Instagram as I do.

The 'At night' black background aspect of this coloring book makes the images really POP as you color them. Teens would love to color these images. With this sort of book, you can go absolutely wild with color and it turns out beautifully. Good book.

I love these books. I'll be honest, I'm a man, and at first, I thought the idea of adult coloring books was stupid, and for women... but now I understand them, and use them often. They can help with concentration, things like quitting smoking, figuring out moods, and problems... I really do recommend this book and getting into the habit of coloring as a form of therapy.... Make sure you have quality colored pencils though... not cheap ones... This particular book might seem morbid to some, but if you really look at the pictures... you just might see a story... very fun indeed!

Coloring. This has been an activity that I have enjoyed since I was a toddler. Holly Hobby, Garfield,

Strawberry Shortcake, Walt Disney - these were some of my favorites when I was a child. It was so much fun to just sit with a clean page and a fresh box of crayons and just let my imagination go. I would color for hours. I think I even took a book or two with me when I went to college - just so I could have something to relax with when classes and exams got me too stressed out. Then I had kids of my own and I was never happier and more relaxed then when I could sit down with them and watch them explore their own creativity and enjoy the smell of that fresh box of crayons themselves! Now, here I am some odd number of years later...my kids are a little older, I'm a little older and coloring has slowly been passed aside for their electronic devices. But then, someone decided to give the coloring pages of my youth an upgrade and come out with coloring books for adults! Intricate, sophisticated, universally appealing designs that brought back the joy and creativity of my youth! A new trend has emerged and I couldn't be happier! Here's where the fun part comes in: thanks to modern day technology, I can reach out and find others like me who love to color and take your every day box of crayons to a whole other level! This is where I found Papeterie Bleu and their line of coloring books for adults. Now normally, I will admit, I would probably pass over a Day of the Dead themed colored book for Mandalas and Flower Fairies but I saw that they were having a contest online and I figured why not? I have an artist friend who has a whole series of Day of the Dead themed paintings that she does and I absolutely love, so while I can't paint to save my life, I could create my own "works of art" with crayons and colored pencils. I didn't win the grand prize but they did send me a few of their books to try. Boy, am I glad I entered!! I was treated to two books (Sugar Skulls at Midnight Vol. 1 & 2) filled with whimsical, intricate and creative designs all backed with a wonderful black border! My imagination went wild and I couldn't wait to start coloring! I have only had time to color a few pages in the past few weeks but I have enjoyed exploring the images within and picking my next choices. Colored pencils, markers...they both look amazing on the paper they used to make these books! I'm on the hunt for some nice gel pens so I can see how those look with the images as well! Even my kids have asked to color a few pages so this is certainly something that will be enjoyed by coloring artists of all ages! If you're looking for a new and unique book to spend your days and nights coloring and exploring it, I would recommend both of these books to you! Thanks Papeterie Blue!(I received this book as part of a preferred reviewer program for testing and a possible unbiased review.)

Such a fantastic book, pages are thick, black all over, even the backside have great patterns on them, the black background really makes the colored pages pop

Got this coloring book for my wife. This is a very detailed coloring book with some great pictures to color. The pages are thick which is nice and it's just a good quality coloring book with enough details and random pictures to keep even the best artist busy for hours on end. Definitely a good purchase.

Tons of great designs with some more intricate than others. Highly recommend!

I really enjoyed coloring these sugar skulls. The black background is very unique, and the colors look amazing when you finish. I'm excited to start on Volume 2 with the animals designs. FYI: the paper is not perforated, but it is thick enough for colored pencils and most gels pens. If you are going to use sharpies or other markers, you will want to use some blotter paper between pages.
