# Spiritual Care In Nursing Practice

## Synopsis

Focusing on spirituality as an inherent component of effective nursing care, this text presents an unbiased view of the nature of human spirituality apart from religion. The text offers a unique interdisciplinary and inter-religious perspective—representing a range of Eastern and Western religious traditions—while addressing lifespan considerations and belief systems within the nursing process framework. Readable, interactive chapters apply the content clinically and highlight timely research on spirituality and health. Each chapter includes case studies, critical thinking questions, and personal reflection questions. Website references are also included.
