Customer Reviews

Very narrow perspective on this really pretty island that has far more to offer than what the author's point out.

This is a great guide! I have followed these guys on their web site for many years and they are in the know of things to see and do. They have been to these places and I trust their advice and recommendations. I like the way the guide is laid out and it is not too cluttered like some guide books are. The kindle price is a bargain and is great since you can take it with you on your tablet or phone on your trip. After reading it, I was ready to pack my bags!
