My kids are obsessed with these books and with bears. Definitely a win win with this one! We paired it with Disney's documentary about Bears, our WWW game, and a few print offs from Teachers Pay Teachers and we had one super fun day! Books are short and to the point! My kids love them!

Easy readers and my kids love them!

My 7 year old loves to read these books. He loves to learn new facts about animals.

The Who Would Win books are my absolute favorite of all time! They make learning about each animal more relevant by comparing the two and then save the "fight" for the end (which is tame, don't worry). My 3 and 5 year olds love these books and we do too!

Good book

These books are so fun to read and packed with meaningful info on your favorite animals. Perfect for kindergarten ears and grade 1-2.

My 7 year old son LOVED these additions to his prior "Who Would Win" books--he learns so much & enjoys reading these on his own. I love how two species are compared, side by side--makes the Facts easy to remember & puts the information into perspective. (example--how BIG are these bears compared to a 7 year old boy!) We re-read all of the books, and compare the physical characteristics from other species, too. Awesome, cool series!

My boys love these books!
