Customer Reviews

Easy to use and the drives we took following this guide were excellent!

I am traveling to Italy soon and found this to be very helpful in deciding how and where to drive. I understand there are many different drives that are all lovely, but this book was able to help me plan where to go in the region I have lodging. I'm glad I have it to refer to.

This book was very helpful for exploring a beautiful part of Italy. We especially loved the descriptive write-ups of places to see and things to do. Would use this again.

there just wasn't enough info on each town. It's good for planning the drives, but you will need another book if you want details on the various towns.

You can't go to Tuscany, where is so much to see (and usually not much time to do it) without this book. It points out the best and helps you out to plan your visit

It gives a good idea of where all to drive in Tuscany .It comes in handy when travelling by car.

I was surprised that the drives in the book were 2 and 3 days long. I was hoping for one day drives. If you're staying in one place, this book is not for you.

Colorful and had nice photos and historical information. The maps were nice but did not have route numbers on it. You had to get them from the text. It would have been helpful to have suggestions on where to stop for lunch.
