Best Sellers Rank: #34,659 in Books (See Top 100 in Books) #5 in [Books > Travel > Asia > China > General](#) #23 in [Books > Travel > Reference > Phrasebooks](#)

Customer Reviews

We came back from Beijing a month ago and we have to say this thing saved us more than once. I speak some Mandarin, very basic conversational speaking. More than once have I had to use this to look up words and phrases I do not know or remember. It's simple, and it gives you multiple versions of phrases as there are regional differences in the way people pronounce things. The book uses standard mandarin and Beijing colloquial. Great for my wife also as she used it to ask for directions and learned writings that we have seen many times in the city. Good price for this helpful little guide!

It even has a section for sexual language Imfao.Perfect lil guidebook, great structure, everything youd need in a lightweight, fully packed book.I still recommend getting a translator/dictionary on your phone, along with offline maps and Chinese social media like WeChat and QQ.You will meet many great people in China. Be strong, be vigilant and explore an ancient world unlike we know in the west.

This is such an amazingly helpful guide. It literally features everything a traveler would need to know including an introduction to the tonal language and how to correctly pronounce them. Easy to find,

color coded sections for health, safety, dining out, etc. What I loved most was the health and safety and dining out sections. They have translated certain medical allergies which for me is really important since I am allergic to the two most commonly prescribed antibiotics. I've never seen that before in a phrasebook. Also how to ask for vegetarian foods. Well worth the money.

I am able to speak a few words of Mandarin, but this book comes in handy and really useful. It is a good reference book to be used daily.

The ink needs to be darker when it shows the Chinese symbols

The phrasebook is well organized around the most common communication needs that a traveller can meet. It is not complete, but the slim size of the book prevents it from being so. For example, there is no phrase to ask for a 'collect call' (or reverse charge); but there is a translation in the dictionary part. Alas, the concept seem foreign to most chinese telephone operators and travel info helpers. The pronunciation of chines words (transliterated into pidgin) is american english; anyone with a different native language is bound (like me) to mispronounce and sound 'odd' to the chinese interlocutor. Make sure to bookmark the page with "I do not understand", as you will use this sentence over and over.

I am please with the look and the construction. I had another brand that lasted a year. I expect this one will last longer due to its sturdiness.

Good book
