Customer Reviews

Bought the first Diary of a Minecraft Zombie book for my somewhat reluctant reader who LOVES Minecraft and I read it myself before giving it to him. (Yes, I'm an overly cautious mom.) BUT, I was pleasantly surprised - it was really cute! Not like "awww!" cute, but it was funny and well written, and it addresses typical kid/pre-teen issues without being over the top, but it does it from the perspective of a Zombie kid - mind you, not a flesh-eating, "Walking Dead," scare my kid so he won't sleep zombie, but one that's appropriate for kids his age (9 years when he began reading them). We both

enjoyed them so much we've kept buying them and hope they continue coming out with new books! I've also tried a few other Minecraft theme books, and one series was just too "blah" and one that was a similar "diary of..." was okay, but this series just really is good. If you've got a kid who likes Minecraft - this is something worth checking out.

My 8 yo son is not much of a reader but loves Minecraft. I was hoping that buying these books would get him more interested in reading and not so much of a fight when it comes to his 10 min reading that he has to do nightly for school. And this book has done the trick. My son will even ask to read a little longer sometimes because he is "at a good part." lol Would highly recommend for any young reader that likes Minecraft.

My 8 year old daughter loves these. She would rather play minecraft (or watch other people play minecraft on YouTube) than pretty much anything else. But these books grabbed her attention, and she is whippin through them as fast as the new ones come out! It actually really helped her get into reading other books too. I think getting the flow going on a book like this, really sparked her interest.

My son likens reading to corporal punishment, so I am always on the lookout for fun books that pique his interest in reading. As a Minecraft "zombie" himself, I just knew my sweet baby boy would relate to the trials and tribulations of the titular Zombie in this series. My adorable and brilliant cuddlebug devoured all of the presently-available installments and we are both now anxiously awaiting the next. (Seriously. Can't you just churn these out in groups of four or something, Mr. Zack Zombie?)

Love! Love! Love theses books for my 8 year old. He has always struggled with reading and hasn't had the interest in any books before. I can believe how much his fluency has improved, he is flying through the series with such excitement and joy! He has finally connected with reading. Thank You!!!! Please keep publishing more books.

My 10 year old son was up past 11:00pm last night READING! What?! He told me he was so into this book that he couldn't put it down. I'm glad I already purchased book 9 & 10! And this is a kid who has struggled with reading the past, and getting him to read was tough! I'm so thankful to have this series!! HE LOVES IT!! And he's sad that he's nearing the end of it so quickly! He reads the books within a few days now!!

My boy loves these. We've purchased almost all of them. He's not a big reader but he loves these. You'll hear him chuckle while reading so must be funny as well!

Kids love this book series have to get the whole set.
