# Around The World In 10 Years: The Book Of Independence: Turkey, Syria, Jordan, Egypt

## Synopsis

First we thought we could go around the world in four years. Then we were convinced that we could do it in seven. When we got to the sixth year of travel, we felt that 10 was a good round number. In June 2010 we celebrated 10 years living on the road, and thereâ„¢s still half the planet left to explore... "...I'll never forget that Monday when I put the barrel of a gun to my head and fired until I was out of bullets, without stopping to think of what I was doing so I wouldn't have a chance to change my mind. It was my resignation to a future which I already knew, a farewell to a secure job, an adieu to a brilliant career in advertising, the microcosm where I had lived for the last twelve long years. It was ten minutes after ten in the morning and my last words were, more or less 'keep the corpse, I'm leaving.' My body collapsed and I walked out the door..." Around the World in 10 Years: The Book of Independence is the story of a dream, of how one day two normal people decided to declare their independence and give up that double life that makes us do on the weekends what we would like to do Monday through Friday. Around the World in 10 Years: The Book of Independence, is the story of Babelâ„¢s back country, a journey through some of the worldâ„¢s worst roads with a 4Ã¢" 4 truck transformed into a house on wheels. There is no bathroom, no shower, no sponsors, no hotels, no phone and no Auto Club. Ã¢"The road will provideÃ¢" is a statement of optimistic intent. Well, optimistic optimism. There are encounters with the Turkish police, conversations with the heart of Kurdistan, nights shared with traditional Islam, desolate desert tracks, tricks for traveling with little money and many little known facts that dispel prejudices and uncover an exciting world, much closer than you ever thought possible. First and foremost, this is a story of people. This overland autobiography will leave you laughing aloud, inspiring you to get out and experience another part of the world Ã¢" one that is well outside your comfort level. If learning Spanish is on your bucket list, then be sure to jot down these books on that list as well.

Pablo Rey was born in Buenos Aires, Argentina. He arrived in Madrid in 1992, when Spain was in the midst of a bad recession. In 1996 he moved to Barcelona and in 2000 he rented his mortgaged apartment and moved into a 4wd van with Anna Callau, his partner in adventures. The goal: to drive around the world through Southern Europe, the Middle East, Africa from north to south, America from south to north, and back to Barcelona via Vladivostok to Finisterre. He has written articles for Overland Journal and Lonely Planet Magazine and has published three books in Spanish about his overland trips. Pablo has won more than 20 awards as a creative advertising writer, is a former illegal immigrant, an antique bottle hunter in ghost towns and one of many Argentinians from Barcelona, or Spaniards from Buenos Aires, with a leg in both continents. Pablo and Anna still live on the road.

If you are interested in Arab world this book might interest you. It wasn't an easy read for me as much as I wanted it to be, I enjoyed only some parts of it and found rest very hard to read & understand. Sometimes there seemed to be no concept - a bit from this and a bit of that, no flow. Very unfortunately I have to say this book was just ok at best... Maybe it's being translated from Spanish to English, who knows. And yes - it seems to talk only about first year or so of the travel, which seem to go in to circles of same old, same old just in different country.

5 stars to the first 80% of the book! The rest is still good but not as good. Pablo is insightful and I can fully relate to his 'mental asides'. If your mind wanders periodically, you've traveled at least a little bit and have an understanding of people and culture you will very much enjoy this read! I'm eager to read more of their trip and insights.

One would think that, with the proliferation of travel literature, it is nearly-impossible to write anything new or fresh; Pablo Rey, his lady, and his translator managed just that. This book is halfway between Kerouac's "On The Road" and Steinbeck's "Travels With Charlie" - if you read these two, you'll enjoy "Around the World in 10 Years:..."

Pablo Rey has an understanding of the wonder, fear and joy of starting over. His call to the road is something many of us have felt but very few of us have the courage to undertake! A great read and fantastic adventure.

Good read, highly reccommendable for those winter months before the fire place.

This was a great book. I would like to read about the rest of their adventures around the world. Well worth the money.

I loved this book. Pablo has such a unique writing style, and my, what an adventure! Highly recommended for all the dreamers out there.

Not as good as I expected. The book only covers the Middle East. I had to force myself to finish it.
