a bit more difficult than i anticipated but a great challenge for my boys.

My daughter loves this drawing book that we saw at Disney World! The shipping was a little slow, and I would have liked to have seen an update, but, it finally arrived.Thanks!

Just what I wanted to learn to draw. Has handy tips for making picture better.

I'm 25 years old and have never been able to draw anything in my life. I recently took the free 20-minute drawing lesson at MGM Studios and was amazed to see a recognizable Donald Duck on my paper at the end of the class. I bought this book before I left Disney and can now also draw Mickey, Minnie, and Pluto. The book also includes lessons for Donald Duck, Goofy, and Daisy Duck. It should be useful for beginners to moderately advanced artists (or even advanced, if you're just starting to draw these characters).

This short book is great. Great for all ages, if you want to learn to draw Mickey and his friends, this is a great start! The book shows step by step how to draw the characters, and gives hints and tips. Very nice.

I'm an artist, i love drawing. So far, this is my best book yet You draw like a professional, You get every line perfect. Once you get get used to it, you can create a mini cartoon. This is the ultimate how-to-draw book!
